RESPONSE TO NOTICE OF NON-COMPLIANT

Applicant has enclosed a complete listing of all claims, including canceled claims without text and original claims. Applicant has corrected the dependency of Claim 37 to Claim 35 as amended on August 26, 2003. Claim 38 has been identified with the correct status identifier of "Original" and reflects the text of re-numbered claim 38 of the originally filed claims. The amendment in Claim 42, changing "receptor" to "determinant" following "androgen", has not been changed as this was submitted on 10/16/2006. Accordingly, only changes to the text relative to the immediate prior version are shown (37 CFR 1.121).

Yours Respectfully,
